

# Super Mario STEM Engineering with LEGO® at Trace Elementary

Bring the world of Super Mario to life as we build LEGO® projects inspired by the video games! Participants in this class will learn about the real-world STEM concepts involved in games such as Mario Kart, Mario Party, and Mario Odyssey. Get ready to power up and help Mario to save the day and rescue Peach from Bowser in this video game themed spring class!

Note: Kinders will be picked up and supervised at release until the start of class.
